

## Dr. Gloria Jeliu

Dr. Gloria Jeliu

In October 2007, at Montreal's CHU Sainte-Justine, the Centre of Excellence for Early Childhood Development (CEECD) honoured Dr. Gloria Jeliu with its 2007 *Medal for Exceptional Contribution to Early Childhood Development*.

Dr. Jeliu's research on infants and young children, her unique role in creating the Clinique de protection de l'enfance et the Centre de développement de l'enfance, and her international influence helped to create in Quebec a solid tradition of research on child development and child welfare.

Dr. Jeliu shaped several generations of young researchers and paediatricians who have helped advance knowledge and improve practices in support of child development and child welfare.

In awarding this medal, the CEECD wishes to make Dr. Jeliu's contributions known in Canada and internationally, and, at the same time, recognize her many achievements.
